

ERIC FOWLER

OBJECTIVE I am a Solutions-based software developer who is excited to expand his horizons on current software stacks. I enjoy finding creative solutions to new technological challenges that arise with breaking new ground. My passion is learning how things work. I am most proud of the work I contributed to an Internal Call Quality Assurance product that still gets used to this day. I thrive on fixing difficult problems that put my problem solving skills to the test.

SKILLS Java 8, Android, C#, .NET
PHP, MySQL, HTML5, CSS, Javascript
Ubuntu 14.x, CentOS 6, Nginx, Windows, VMWare

PROFESSIONAL PROJECTS

CALL DIRECTORY LOOKUP SOFTWARE

- Learned SOAP XML to communicate with a Sharepoint Server Web Service.
- Designed and developed an ASP.NET page that leveraged AJAX to dynamically lookup phone numbers as the user typed a name.

CALL RECORDING SOFTWARE

- Collaborated with a team to develop a fully-integrated web service to provide QA feedback on recorded Customer Support calls.
- Learned AJAX to provide an interactive page for listening to calls inside the web browser.
- Utilized PHP to transcode audio files on the fly to formats supported by various browsers.

HOME MANAGEMENT WEB SERVICE

- Created a PHP based service to split up household costs between roommates.
- Designed the MySQL database to store user data and manage bill tracking to give notice when bills need to be paid.
- Included a dynamic graphing module to display utility usage based on inputted data from previous bills so the household could all see their usage month to month.

EDUCATION

SEEDPATHS - DENVER, COLORADO, FALL 2014

An 8-week software boot camp that teaches professional development and software development skills, focusing on building a solid foundation in developing software.

CHRISTOPHER NEWPORT UNIVERSITY - NEWPORT NEWS, VA 2006 - 2008

Completed 2 years of coursework towards Bachelor's degree in computer science.

CERTIFICATIONS

Certified ScrumMaster
Microsoft Certified Network Administrator
Microsoft Certified Desktop Support Technician
